PROFESSIONAL SUMMARY

Results-driven Software Engineer with 5+ years of experience designing high-throughput microservices and cloud-native systems in fintech and healthtech. Skilled in .NET, AWS, Kafka, PostgreSQL, with proven success in delivering scalable solutions and accelerating CI/CD deployments. Experienced in integrating AI-assisted workflows, mentoring teams, and architecting resilient cloud infrastructure.

EXPERIENCE

- Millennium Management** Bangalore, India
Software Engineering Consultant Sep 2025 – Present
 - Contributing to the design and development of T0 real-time and T1 batch reporting microservices processing approximately 2.5M trades/day using .NET, Angular, Kafka, PostgreSQL, Snowflake and Redis.
 - Architecting AWS infrastructure with CloudFormation and integrating TeamCity CI/CD pipelines; implemented Kibana dashboards for observability; supporting Snowflake-based reporting pipelines for treasury reconciliation.
 - Integrated Claude and Qodo into GitHub workflows to streamline code reviews.
- Nasdaq** Bangalore, India
Senior Analyst - Software Engineering Dec 2024 – Jul 2025
 - Engineered 5+ .NET microservices for eVestment Omni using Entity Framework, SQL Server, Vue.js, Terraform and AWS.
 - Containerized services with Docker Compose, cutting developer environment setup time by 90%.
 - Integrated Salesforce CRM into OMNI pipeline for real-time data synchronization across business units.
- Siemens Healthineers** Bangalore, India
Engineer - Design & Development Sep 2020 - Nov 2024
 - Developed and maintained .NET Core REST microservices with MySQL/NHibernate for the OnScreen Menu Configurator, handling 10,000+ daily transactions and ensuring high reliability.
 - Built Azure DevOps CI/CD pipelines with automated test gates, nightly builds, Azure Functions, and analytical views to enable zero-downtime deployments and production reporting.
 - Automated end-to-end testing using Selenium, SpecFlow (BDD), MSTest and Jasmine, cutting manual testing by approximately 80% and achieving 99% test coverage.
 - Owned the Position List Editor subsystem. Proposed and delivered 3 product ideas adopted to production; led workshops and knowledge-sharing to upskill team members and customers.
- Intern** Jan 2020 – May 2020
 - Automated 35+ OnScreen Display, CELoader workflows using C#, Python and Selenium; reducing testing efforts from 2 days to 4 hours.

SKILLS

- **Languages:** C#, Python, JavaScript, TypeScript
- **Backend:** .NET, Kafka, LINQ, REST APIs
- **UI Development:** Angular, Vue.js
- **AI Tools:** Claude Code, Github Copilot Studio, Glean Agent Builder, AWS Bedrock
- **Cloud & DevOps:** AWS, Azure DevOps, Docker, Octopus, TeamCity
- **Databases:** PostgreSQL, SQL Server, MongoDB, Snowflake, Redis
- **Testing:** Behavior-Driven Development (SpecFlow), MSTest, Selenium, Jasmine
- **Methodologies:** Event-Driven Architecture, Microservices, Domain-Driven Design, Scrum, Agile

EDUCATION

- International Institute of Information Technology, Hyderabad** Percentage: 98.5%
Post Graduate Certificate in Software Engineering for Data Science 2022 – 2023
- JSS Science and Technology University, Mysuru** CGPA: 9.13
Bachelor of Engineering in Electronics and Communication 2016 – 2020

PUBLICATIONS

- **Indoor Navigation Assistant for Visually Impaired:** Published in International Conference on Communication, Computing and Electronics Systems. DOI: [10.1007/978-981-33-4909-4_17](https://doi.org/10.1007/978-981-33-4909-4_17)

PROJECTS

- **Millennium Treasury - Payment Reconciliation AI Agent:** Glean Agent that processes 100+ treasury emails daily to extract and reconcile payments with portal records.
Tech: Glean Agent Framework, Microsoft Graph.
Impact: Saves 2–3 hours/day and improves reconciliation accuracy.
- **InsightGen:** Contextual search across GitHub, JIRA, and Confluence to surface relevant docs and code snippets.
Tech: Copilot Studio.
Impact: Cut developer search time for project information.
- **Voter CRM:** Dashboard visualizing Telangana 2023 voter demographics from 20M+ records.
Tech: Python, Flask, Streamlit, Docker.
Impact: Enabled large-scale election analytics in assembly elections.
- **Agile Project Management Tool:** Scrum reporting dashboard for Epics, Features and Defects.
Tech: Power BI, Azure Analytic Views, Python.
Impact: Increased sprint visibility; used by 15+ Scrum teams.

CERTIFICATIONS

- **AWS AI Practitioner Challenge** Udacity
- **Claude Code 101** Anthropic
- **AI Fluency: Framework & Foundations** Anthropic
- **Backend Development Path** Scrimba
- **Front-End Web Development** Udemy
- **AWS DevOps Pro - Mastering CI/CD Pipelines** Skillsoft
- **Secure Coding** Code Bashing

ACCOMPLISHMENTS

- **DAQ - Act as an Owner, Nasdaq** 2025
- **Star of the Sprints, Siemens Healthineers** 2024
- **Alumnus - SHPL Leadership Launchpad** 2023
- **Winner - IIIT-H PGSEDS Hackathon** 2022
- **Finalist - Hackerearth Aerothon** 2022

AFFILIATIONS

- **Nasdaq SEEN** 2025
Organized workshops on AI and Software Development and coordinated Nasdaq Hackwave.
- **Veteran Employee Resource Group** 2022 – 2024
Supported veteran hiring initiatives.
- **Project Rise NGO, Save The Child NGO** 2018 – 2020
Tutored underprivileged children in computer literacy and digital awareness.
